

## Regulowany wspornik szyby Suzuki DL650 (04-11), DL1000 (04-13) Instrukcja instalacji

Zestaw zawiera:

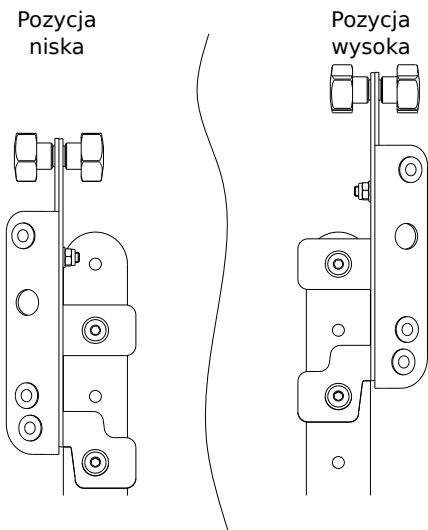

1. Zdemontuj maskownicę śrub szyby, szybę oraz oryginalny wspornik szyby.
2. Przykręć ramiona (1) i (2) do czaszy motocykla korzystając ze śrub (4) jak na Rys. I. Pomiędzy powierzchnię mocującą czaszy a powierzchnię ramion wspornika umieść podkładki (3), tak jak na Rys. I. Ramiona wspornika możesz zamontować w zależności od preferencji w górnym lub dolnym położeniu, tak jak pokazano na Rys. II. Śruby (4) dokręć momentem 9,6Nm.
3. Do trzech otworów w każdym z ramion wspornika włóż tuleje (5), tak jak na Rys. I.
4. Zamontuj szybę jak na Rys. III. używając oryginalnych śrub i tulejek. Dokręć śruby szyby momentem max 1,5Nm. Zamontuj maskownicę śrub szyby jak na Rys. III. przy użyciu śrub (6), dokręcając je momentem max 1,5Nm.
